NASA TECHRISE
STUDENT CHALLENGE

THE CHALLENGE

TechRise invites teams of **students from grades 6-12** to build and launch experiments designed for space. Winning teams receive funding to build payloads and an assigned spot on a NASA-sponsored commercial suborbital flight.
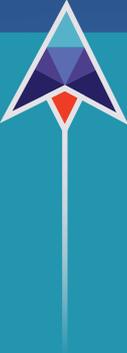

TechRise aims to inspire deeper understanding of Earth's atmosphere, space exploration, coding, electronics, and the value of test data in technology development.

Join NASA in exploring space and studying our planet!

futureengineers.org/nasatechrise

TechRise is sponsored by NASA's Flight Opportunities program, part of the Space Technology Mission Directorate.
